TUESDAY SEPTEMBER 4, 1883

THE CONTEST IN OHIO.

The political fight now going on in Ohio, in one respect, is not unlike the last national contest; Judge Hoadley, like General Hancock, was a great deal stronger on the day of his nomination than at any subsequent period. Had the election in either case taken place at any time within two weeks after the convention, there is but little room for doubt that both gentlemen named would have been elected by overwhelming majorities. The importance of success in Ohio is fully appreciated by both parties, and nothing is being left undone by either to obtain the desired result; but if the reports from that State are to be relied upon, the head of the Democratic ticket has steadily lost ground every day since the adjournment of the State Convention. Below we produce an extract from the *Sunday Capital*, an Ohio Democratic paper, edited by Colonel Elliott, a man of political influence, and one of the leading Irishmen of the State, who has recently deserted Hoadley and is now giving a hearty support to Mr. Foraker, the Republican candidate. The following is the extract above referred to:

Believing that the time has arrived for a few plain words we set ourselves out to voice the sentiments of an honest majority of the Democracy of both the county and State, and crystallizing these sentiments into an expressed conviction, we have no hesitation in stating that the absolute defeat of the head of the State ticket is earnestly desired by every Democrat of principle in Ohio.

The number of such cases have worried Judge Hoadley nearly to death, and he has had to leave the battle-field for the hospital.

EDITORIAL NOTES.

Butler's friends have started a weekly, called *Father Columbia*, in New York, to advocate him for the Presidency. Its contents are biographical sketches of General Butler, who furnishes the coin. Its candidate for Vice-President is John S. Regan of Texas, and its platform is: Justice to labor; turn out the rascals in all parties; reduce public expenses 75 percent; railroad fares uniformly a cent a mile; railroad freight at a rate just, uniform and permanent; telegraph and express rates reduced 50 per cent.; recuperative trade; gold and silver certificates the only paper money; no monopoly; no more Tewksbury; no sumptuary laws; no banks of issue; no public debt.

Mr. Gladstone does not believe in having a certain class of politicians in this country prefer charges against him reflecting on his wisdom. He positively denies that he ever invested \$100,000 in Confederate bonds. The *Ogden Pilot* says: Whatever may be said of Her Majesty's subjects it cannot be proved that the Premier ever had more money than wit. His speculations have never been of that character which would subject him to the ridicule of the whole world. No, Gladstone is not as foolish as many of his wealthy countrymen.

The scientists have a new nut to crack, and one that may prove nearly as hard as the monkey-man question, says the *Sacramento Bee*. It is that one of the most singular freaks of the recent volcanic eruption in Java was the carrying, in the midst of the molten lava, of a bed of solid ice of enormous size, which had been emitted from one of the craters. It was carried along by the current and landed on the extreme northeast corner of the island. This bed of ice was surrounded by a thick envelop of sand and scoriae which are non-conductors of heat.

That dangerous creature, the American girl, is to be banished once more from French society. At least, its great leader, Princess de Sagan, declares that no more "American misses" shall enter the charmed circle, unless they come recommended by two "ladies of undoubted rank." This is eminently the proper thing to do. If the Yankee girls in Paris will attract the French beaux away from the French belles, why the Yankee girl must be abolished.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

No Mormonism in Georgia.

ATLANTA, September 4.

The Mormon elders are still popping up in various parts of the State. Tuesday two elders held a meeting in Emory chapel in the 4th district, Coveta county. The meeting was attended by a good many young men, some of whom went through curiosity, and others went from other motives. The meeting was opened by singing and prayer, and afterward one of them got up to deliver a discourse on the beauties of Mormonism, and when he had made a few remarks, there came a voice from the audience, "Take him out;" the elder paused a moment and said he was there for religious worship and that he hoped he would not be disturbed. These words had not more than escaped his lips when they were both pelted with a shower of rotten eggs; they saw at once that they had met the wrong crowd, and, grabbing their gripsacks, darted out of the nearest door, pursued by the entire audience who chased them as long as they could see them. When last heard from, they were making a bee-line westward.

Needed an Adviser.

LOUISVILLE, September 3.

John Stinson, a young man who had just attained his majority, was arrested this morning while attempting to throw himself head first from the top of a freight car. He said he had tried to make a man of himself but had failed and was no good and wanted to die. He was taken to jail and within 10 minutes had climbed to the top of the corridor and threw himself to the stone floor below, fracturing his skull and dying in a few minutes. He has been despondent for some time. He bade his family good-bye this morning, saying they would probably see him no more.

Mighty Courtesies.

CHICAGO, September 3.

The return of Eminent Commander Henry Turner from San Francisco yesterday was made the occasion of a street display by the local Commanderies numbering 400. In the column were the victorious DeMolay Commandery, and the Baltimore and Washington Commanderies. Subsequently the DeMolay Commandery gave a display drill on the lake front which was witnessed by thousands, who heartily applauded the splendid evolutions of the corps.

A Terrible Death.

BRODFOOT, CONN. SEPT. 3.

Rose Clark, about 25 years old, daughter of Nathan W. Clark of Stratford, was found dead near her father's residence yesterday. Finger marks on her throat indicated she was choked to death. She was about to have been married in about two weeks. A post mortem showed she had been shockingly outraged. The body and limbs bear bruises and other marks of violence, indicating a desperate encounter.

WESTERN DISPATCHES

[PRESS DISPATCHES TO THE GAZETTE.]

A Passage Rate War Contraband Goods—A Felonious Assault.

SAN FRANCISCO, September 4.

The war in eastern passage rates in this city continues; commissions on New York tickets have risen to \$26. The fight is being chiefly made by the Chicago, Milwaukee & St. Paul road, whose admission into the freight pool was opposed by other eastern roads.

The Mexican authorities at San Mateo, Lower California, seized the schooner Handy, on the pretext that she had contraband goods on board, and insisted on the Captain dumping all his cargo on the beach. On the Captain refusing to do so, they obliged him to return with his vessel to this port, and procure from the Mexican Consul a certificate that no contraband goods were on board the schooner.

The act is looked upon as an unjustifiable one, and claims will be made to have the Mexican official responsible for the act dismissed.

Miss D. E. Wood, traveling on a pass of the Central Pacific Railroad Company, reports that on August 18th, while on her way to New Orleans, was the victim of an attempted felonious outrage by a Pullman car conductor. The reported outrage is to be investigated by the Pullman Car Company.

The condition of the district of Lampong, Sumatra, is a terrible one; everything in the district for a distance of leagues is destroyed.

At a general meeting of the American Social Science Association, Prof. Hale of the law school delivered an address on capital punishment. He approved hanging.

Poison was put into the beer and food of harvest men employed by Leigh, a landlord, near Ross, Ireland, who incurred the dislike of the populace, owing to his opposition to the Land League. Two have died, and others are in a precarious condition.

FOREIGN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

More of the German Railroad Disaster.

BERLIN, September 3.

Eleven men, 18 women and 4 children were killed. The train, it seems, dashed into the midst of a large crowd, killing and cutting the people right and left. The most of the victims belong to the artisan class. After the catastrophe, the railway was found to be covered for a hundred yards with the bodies of the shockingly mutilated. Of one family of five persons, one escaped. A sailor and a woman were decapitated. The engine was covered with pieces of flesh, bones and rags, drenched with blood. The remains were gathered by torchlight by the firemen and soldiers, and taken to the Berlin morgue.

BERLIN, September 4.

The fatal railroad disaster at Steglitz has long been apprehended. The Government, after its purchase of the Berlin & Rotterdam Railway, asked the district to vote a sum sufficient to alter and enlarge the depot at Steglitz. The Minister of Finance, in his report therefore, stated he was unable, under the existing dangerous circumstances, to undertake the responsibility for the lives of the great number of passengers which were constantly imperiled, if the grant sought to be obtained was refused. A vote was taken upon this request by the district, and rejected.

The reactionary press throws the blame for the accident upon the National Liberals in the district, they having refused to vote upon the question. The Emperor has ordered a committee to make a rigid inquiry into the cause of the accident.

South American News.

PANAMA, September 3.

The election of the President of the United States of Columbia took place yesterday. Panama colony and Buenaventura voted for Nunes; nothing definite from the interior. Everything is quiet as far as known.

At Bogota during the Presidential canvass, there were riots and loss of life.

The exhausted treasury has received a loan of \$500,000 from the canal company.

The American schooner Lotus, from San Francisco, Captain Thomas Hall, commanding, recently left Panama on her return voyage. The Captain soon died. A coast pilot was picked up, and he brought her back. The mate put her in charge of Consul Adams.

So convinced are the Chilianos that the treaty with Peru will be carried out, that they have determined to evacuate Lima September 15th. Iglesias will enter the city with 3,000 men, and a convention will at once meet.

At the Cuban mountain, a brigand chief named Pietro Caspedes was attacked by some Chilian cavalry and 100 of his men were killed. This loss, it is expected, will stop further depredations.

The passage of the cemetery bill providing for interments in cemeteries regardless of creed, causes a panic in Santiago, and a number of bodies have been disinterred and reburied in churches and chapels.

Ireland's Troubles Not Over.

DUBLIN, August 30.

Recent storms almost entirely destroyed the grain and other crops of South Ireland. The authorities fear a renewal of the rent agitation, owing to distress in consequence of the loss of crops. The farmers throughout Ireland demand an amendment of the Land Act. It is reported that the woman who testified against the Ballyard moonlighters in March, 1882, has been shot dead in Australia.

TELEGRAPHIC BREVITIES.

—President Arthur arrived in Chicago, from his Yellowstone trip, today.

—One hundred and fifty persons died from cholera yesterday in upper Egypt.

—Two iron electric towers were broken off by lightning during a storm in Vienna.

—In the anniversary ceremonies of the battle of Sedan, the Emperor and Count Von Moltke visited the panoramas commemorative of the title.

The citizens of Agram are resolved to drape their houses, shut up shop and stop all traffic if Hungarian rebels are restored in public places.

—The largest crowd ever seen on a similar occasion met at Frankfort, Kentucky, to-day to witness the inauguration of Governor-elect Proctor Knott.

—The Governor of New Caledonia received a petition from notables of Noumea, urging France to take possession of the New Hebrides. Two French men-of-war have started thither.

—Poison was put into the beer and food of harvest men employed by Leigh, a landlord, near Ross, Ireland, who incurred the dislike of the populace, owing to his opposition to the Land League. Two have died, and others are in a precarious condition.

—In a speech at Monforte, King Alfonso thanked the directors who built the railway, which his Majesty expressed a hope would become an added link in the union between France and Spain.

TELEGRAPHIC BREVITIES.

—Dr. Bartholomew says Judge Hoadley only requires rest.

—The opening of the foreign exhibition at Boston occurred yesterday.

—Free postal delivery was established in 42 towns during the year ending June 30th, 1883.

—A \$75,000 fire occurred in Cincinnati yesterday, and it is feared that five women were burned.

—A Hong Kong correspondent says that the Chinese are massing at Whampoa, and constructing forts.

—Spanish officials who cannot prove that they did their utmost to keep the troops loyal, are to be dismissed.

—The Russian Government forbids the Poles celebrating the bi-centenary of Sobieski's raising the siege at Vienna.

—The general assembly of the Knights of Labor met at Cincinnati to-day. Their session will be strictly private.

—At a reception given to President Arthur and party, and the Villard party, at Minneapolis yesterday, it is estimated that 40,000 visitors were present.

—S. H. Walker, book-keeper for the Yeast Powder Company in Boston, has disappeared with some funds belonging to the firm, and it is thought he has gone to San Francisco.

—A number of peasants, attending market at Garian, Hungary, last night, mobs committing terrible havoc upon property. One person was killed and four wounded. Troops are en route.

—Serious anti-Jewish rioting took place at Zigaretz, Hungary, last night, mobs committing terrible havoc upon property. One person was killed and four wounded. Troops are en route.

—A woman desires a situation as cook.

Cool Off.

Reno Evening Gazette

TUESDAY SEPTEMBER 4, 1883

JOTTINGS.

Did you ever see a Katydids in Nevada?

Lassen county has been favored with a slight rain.

Frank Frye was arrested this morning for selling whisky to Indians.

The dog-tax ordinance has been repealed by the Board of County Commissioners.

The ladies of the W.T.C.U. will give another of their pleasant entertainments next Saturday evening.

I'll wait till the clouds roll by. (sheet music) at Nasby's Thermometer at 7, 9, 11, 1, 3—69, 88, 77, 88.

Ah Sam, the Franktown Chinaman sent here for selling whiskey without a license, paid his fine this morning and was discharged.

The assessment roll of Washoe county for 1883 shows over \$4,000 worth of property, an increase of about \$70,000 over last year.

The Boca Hotel waiter, Fred Beck, who cut Mike Donohue in the arm a short time ago, had a hearing before Justice Byrne, at Truckee, and was discharged; it appearing that he acted in self-defense.

The Combs' case was this morning placed on the calendar, and the day of trial will be fixed to-morrow. The Gazette thinks the defendant is as likely to receive a fair trial in Washoe as in any other county in the State.

A BRAVE POMPE.

A "Bad Man" Robs a Passenger Train and Stands Off His Wounds.

An Ogden dispatch of the 3d instant says: Further particulars have been received from Richmond, Utah, the station where one man entered a car on the Utah and Northern Railway train and relieved eight men of their valuables. It seems that after committing the robbery, the "bold, bad man" repaired to a patch of lucerne near by and sought slumber, where he was found this morning by a posse sent in pursuit. The pursuers opened fire without effect, and speedily fled when the robber returned his fire with his revolver. In their hasty retreat one of the pursuing party dropped his watch, which fell into the hands of the enemy. Gaining reinforcements, the pursuers run the robber into a thicket of willows; but it appears no one of the posse has the temerity to venture inside, and consequently the bad man is, up to latest accounts, master of the situation.

How to Get Sweet Mutton.

Gen. Cassius M. Clay gives directions how to slaughter and dress a sheep so as to wholly prevent the rank odor and flavor so often attached to mutton. First, he withholds all food from the animal for full 24 hours or more before slaughtering, but gives in the meantime all the water it will consume.

When ready to slaughter, he has all things in readiness, in order that the job may be accomplished in the shortest time possible, when the sheep is hung by the hind legs and the throat quickly cut, severing all the main arteries at once, and the moment life is extinct the work of disemboweling is accomplished, and the skin taken off in the shortest time possible. The result is meat of the most delicious flavor, without a taint of the rank, offensive odor and equally offensive flavor so often accompanying meats of this kind. He never selects a lamb for delicate meat, but always chooses a full grown sheep, from two to three years old.

Arrested for Forgery.

This morning's Carson Appeal says: Addison Seymour, a lame man, or rather cripple, who represented himself as an attaché of one of the departments at Washington, and who was for some time stopping at the Arlington House this summer, has just been arrested in the East for forging a check for \$1,525 on a Missouri bank, which was cashed by the New York branch of the Nevada Bank. While here he received a letter of introduction to a New York broker from an attaché of the Carson Mint, and this broker innocently endorsed the check for Seymour. The forged will be taken to San Francisco.

The Mexican Controversy.

A California exchange contains the following sensible opinion: We took a peep this week at the Woodruff case, in which the mountains and the valleys are in conflict. It has been dragging its slow length for weeks, and it reminded us very much of the picture in the back of Noah Webster's old spelling book where one farmer had the cow by the horns and the other by the tail, while the lawyer was milking her. Both the mountains and the valleys will be milked pretty dry if they don't look out.

COUNTY BUSINESS.

The Regular Meeting of the Board of County Commissioners.

The regular monthly meeting of the Board of County Commissioners was held yesterday when the following business was transacted, a full Board being present:

Ordered, that John Devoy have the contract to grade the road in North Glendale road district, leading from Mrs. Hickman's house north to the railroad, at \$1 per rod.

Ordered, that Certificate 4,729 be paid out of the Franktown road fund.

Ordered, that the District Attorney examine bills of Justice Young and Constable Nash, and that said bills be laid over until next meeting.

Reports of Sheriff, Clerk, Recorder, Jailer and Co. Physician, were received and ordered filed.

Relief of \$20 was granted Mrs. Negley and \$10 each to Mrs. Baddeon Mrs. Clancy and Mrs. Cook.

A communication concerning survey of boundary line between Washoe and Humboldt counties was received from the Board of Commissioners of Humboldt county.

Board of S. M. Place, as Road Supervisor of Franktown, was approved.

Ordered, that the ordinance taxing dogs be repealed.

The following claims against the county were allowed:

HEAVY RAINFALL.

Eureka and Surrounding Country Well Watered.

The following, from the Eureka Sentinel of the 1st, indicates that for some cause unknown to the "just," the "unjust" are getting nearly all the showers this summer:

"The weather continues unsettled, and Eureka was visited by another rainstorm yesterday afternoon, almost as severe as that on Wednesday. The clouds came from the west and moved directly over the town, but did not extend far to the southward. There were several fierce flashes of lightning and three terrific peals of thunder, followed by a perfect deluge for some minutes, which brought the water down Ruby avenue again in a torrent. The big ditch, however, did not receive as much of a stream as on Wednesday, showing that the storm was entirely local." The same paper of the 2d contains the following in addition to the above:

"The recent storm was particularly severe over at Duckwater and Bull Creek. J. W. Lockwood, who came in from Hamilton last night, says that at Bull Creek on Thursday the rain came down in sheets, the like of which has not been seen there before in the memory of the oldest inhabitant. The creek was in a short time converted into a roaring river, and a great deal of country overflowed. A number of farms were badly damaged, and on several the crops were entirely destroyed or washed away. For 24 hours the stream was impassable.

The Combs Case.

A decision was rendered yesterday by Judge Edwards of Carson, transferring the Combs murder case to Washoe county, and this morning Sheriff Swift arrived with the prisoner and turned him over to Sheriff Emmitt. General Kittrell, for the defense, asked that an exception be entered to the above order, claiming that owing to an article which appeared in the GAZETTE at the close of Combs' last trial in Ormsby, that the people of this county are prejudiced, and the prisoner cannot have an impartial trial.

[The GAZETTE is of the opinion that the people of Washoe county will give Combs a fair and impartial trial, and be governed entirely by the evidence adduced. General Kittrell can acquit his man here as easily as anywhere if he is innocent.

Keep Still if You Want a Good Item.

The Plumas National tendered the following article concerning the production of first-class newspaper items: "The Reno GAZETTE man warns passengers that the result of climbing on to a moving train will be a man cut in two some fine morning. Very likely, but what does he want to say anything about it for. Don't he want any first-class items like that? Keep right still and you can come out with 'Another Railroad Murder! The Victim Slashed into Several Slices!' A GAZETTE reporter, etc."

His Condition.

Ben Franklin, the man who cut his throat at the Ohio House, the other morning, has been committed to the asylum as insane.

His condition is critical and recovery doubtful.

His right name is B. F. Glidden, and he has a brother well-to-do, living at Marysville, Cal.

Seriously Wounded.

It is rumored that Judge Sabin of the United States District Court has received a dangerous dart wound in the vicinity of the right ventricle, which, it is thought, can only be cured by one whose residence is at Ormsby county's "port of entry."

A Nice Place.

M. C. Lake is making extensive improvements at the Lake House.

New furniture is being provided

and many other valuable improvements.

The Lake House is one of the best family hotels on the coast.

Register at the Lake.

Making Good Progress.

Superintendent Kinkaid came in

from Pyramid this morning and reports that good progress is being made on the mine.

During the past month 64 feet per day has been

the average advancement made on

the tunnel. He thinks the ledge

will be cut by the 10th of October.

Gone For Treatment.

William Forsyth went to San

Francisco this morning to be treated for a tumor in his throat.

He has had it cut out once, but it is

growing again. He has not been

able to speak for two weeks.

PERSONALS.

M. Shields of Wadsworth, made a call at the Gazette office to-day.

Master Mechanic Fording of the V. & T. was in town last evening.

Superintendent McKenzie of the Mt. Cory mine came up from below this morning.

S. H. Day, one of the Regents of the State University, went to Elko on this morning's express.

Senator J. B. Gallagher of Esmeralda county arrived from the Bay this morning on his way home.

L. F. Dunn of the Eagle mine in Humboldt county, accompanied by his family, passed east this morning.

W. H. Stevens, assistant melter and refiner in the Carson Mint, arrived from San Francisco on this morning's express.

E. S. Slocum, late of San Francisco, will be at the ticket office during Phillip's absence. Mr. Steeves is on day.

M. Lenehan, who has been ten years in the county as C. P. trackman, leaves to live in Los Angeles the last of the week.

J. C. Ragdale, an old-time Humboldt, and for several years special agent for the Western Fire and Marine Insurance Company, passed east to-day.

Mr. and Mrs. John Guthrie of the Sonoma ranch in Humboldt county, and the parents of Mrs. C. S. Varian, passed below yesterday, intending to be present at the California State Fair.

BACK TO HIS CELL.

S. P. Chalfant, an Escaped Convict From San Quentin, Captured by Detective Burke.

Detective Burke came in this morning with S. P. Chalfant, the man who escaped from the penitentiary at San Quentin last Sunday. Chalfant was arrested at Winnemucca yesterday. Superintendent Whited telephoned Captain Burke, at Lovelock, that there was a man on the east-bound train with false whiskers. Captain Burke boarded the train and found the suspected individual, who was a portly, gentlemanly looking man, and, taking a seat near him, entered into conversation. He noticed that his beard was false, and believing him to be a criminal, told him he wanted to see him in the smoking-room of the sleeper. The bearded man hesitated about going, and Captain Burke informed him that he was an officer, when the stranger put his hands in his pockets to draw his pistol, as the officer supposed; but Burke was on the alert and brought him to bay with a revolver, believing him to be a stage robber endeavoring to make his escape out of the country. He then told Captain Burke his name. He told the officer that he did not intend to draw his pistols, of which he had two, but was attempting to get some morphine pills, of which he had a few for the purpose of taking his own life, as he preferred death to further life at San Quentin. He was well provided with money and clothing and had a ticket to Ogden. Chalfant was asked by a GAZETTE reporter how he made his escape, but he refused to impart any information on the subject.

Died in Sacramento.

A. H. Barnes of the Golden Eagle Hotel received a dispatch to-day from Sacramento, saying that William Williams of Susanville died at that place at 6 o'clock last evening.

Committed to Jail.

A colored burglar who broke into the dwelling house of William Nichols in Wadsworth, was received at the county jail to-day, having been sent up for 90 days.

Look Out.

Forty thousand head of cattle a week have been going into Chicago for over two months. Only a moderate share of these have been from the ranges. This is an unprecedented run of corn-fed and nearly all by grass-fed cattle, which militates greatly against the interests of ranchmen. The Drovers' Journal says prices for range cattle in Chicago are 50 per cent lower than a year ago. Some say that the condition of the market will have a tendency to curtail supplies; but, as most ranchmen are about 30 days later than usual with their shipments, and as few of them are preparing to ship cattle not ready for market, it does not seem very likely that there will be any material stoppage in shipments, even if prices go still lower. Prices have been high for some time and dealers will be in danger of a drop. If they are not careful, somebody may get hurt.

RANCH FOR SALE.**A RARE CHANCE****LARGE INVESTMENT.**

One Hundred and Six
Thousands Acres.

THE WELL-KNOWN AND VALUABLE

CLOVER VALLEY RANCH

Located in

Humboldt County, Nevada,

FOR SALE:

4,000 Head of Graded Cattle.

54 Head American Horses, including 50
Fine American Brood Mares 6,000
Acres Fine Meadow Land, Capable of Producing

5,000 TONS OF HAY per ANNUM

240 ACRES IN ALFALFA, WELL IR-
rigated, producing five tons per
Acre 28,000 acres under
fence.

**MOWERS, REAPERS, FARMING
IMPLEMENTs.**

With all the appliances of a stock and
grain farm to be included
in the sale.

The Whole Ranch Comprising One
Hundred and Six Thousand
Acres.

CONTROLLING TWO HUNDRED AND
FIFTY THOUSAND ACRES.

THE CLOVER VALLEY RANCH, OR,
as it is sometimes known, "The Iron
Pinto Stock and Grain Ranch," in Nevada,
embracing one hundred and six thousand
acres of land, is now offered for sale upon
terms which represent a liberal concession
to the purchaser, and offers high
inducements to the buyer, permanent
and profitable investment.

With this ranch will be sold four thousand
head of stock cattle, now in splendid
condition, embracing three hundred and
thirty head of cattle, which will be
offered at a cost of six hundred
dollars each. The entire herd is
composed of grades produced by crossing the
best American cows with the very
best thoroughbred stallions, and
is destined to be the best in the country. There are no
inferior animals in the herd; no Spanish
cattle or crosses from Spanish cattle.
These ranches embrace the best of the
so-called modern land, which will pro-
duce five thousand tons of hay per
annum. There are two hundred and
forty acres of fine alfalfa under irrigation,
capable of producing eight thousand
tons of hay per annum. Twenty-
two thousand acres of this ranch is now
under fence, with redwood posts sixteen
feet apart, with iron barbed wire, newly
strung. The ranch consists of one good one story and a half
house, with four rooms, a stone cellar,
and stone dairy house, well built. Home
barn forty by one hundred feet, and
a large house. There is a splendid
creek of living water running through the
ranch; also, an excellent well of water
with two or three springs. The ranch
also contains a fine reservoir, from which
flows about twenty-five hundred inches of
water, sufficient to irrigate twenty-five
hundred acres of land which lie below
them, and which can be irrigated
at a very little cost. Inclosed in this
ranch there are two thousand acres of fine
agricultural and meadow land, about
seven miles northeast of the ranch buildings,
up the valley, and a fine hundred
and seventy acres in alfalfa finely growing.
This is a fine grain ranch, and will pro-
duce forty to fifty bushels of barley per
acre per annum. The ranch is now in
the best condition, and a live stream of water af-
fording abundance of trout. About four
hundred acres of this small ranch is under
fence. The vendors of these ranches
own and control the same, and are
able to sell to the use of two hundred and
fifty thousand acres of land for grazing.
There is sufficient water to irrigate twenty-
four thousand acres in the ranch, and
can be irrigated in the upper ranch,
making a total of thirty-four hundred acres.

The sale will include eighty-four head
of good American horses, fifty of which
are large stallions, and the remainder
horses, geldings, and mares, all well trained
for herding cattle and well broken work
horses; also, there will be included in
this sale grain headers, eight plows, a
muck spreader, and all farm im-
plements necessary to run this ranch.

Six years ago this ranch maintained
throughout the various forty thousand
head of cattle. The price paid for
these cattle was \$100 per head, and the
stock was sold, the owner of this ranch selling twelve
thousand head. After a rest of six years
the range was recuperated, and is now
as good as ever, and in primitive condition.

The other thousand head of cattle now of-
fered for sale are the progeny of well-se-
lected cows from the best dairy herds in
California and Nevada. These cows are
crossed with the best known numbers very
rapidly. Eight hundred calves will be
produced in 1883, and estimating upon the
basis of the past experience of increase
of the band, we may expect to have a
total of one thousand calves in 1884.
The range is capable of supporting
without being overstocked, twenty-
five thousand head, and the present
herd may be increased to that number
without exceeding the range than that
now offered to be sold.

The Clove Valley ranges embrace
Township 36 north, ranges 41, 42, 43, 44
east, township 37 north, ranges 42, 43, 44
east; township 38 north, range 44 east;
township 39 north, range 44 east;

Mount Moriah.

Title papers and patent rights from the
United States will be given to one home
owner, and the remainder of land, com-
manding about one hundred fifty thousand
acres, to which the owner
of the land now offered for sale is a
perfect key.

The value is estimated to be worth four
hundred and twenty-eight thousand dollars.

The whole is offered for three hundred
thousand dollars, of which one hundred
thousand dollars, the balance to be paid
in cash, one hundred and twenty-five thousand dollars in five
years. Deferred payments to bear seven
per cent, and pay annual interest to be deducted from the
total purchase price.

Reference is had to ALVARO EVANS,
capitalist, of Reno, and R. L. FULTON,
Reno Gallerist, Reno, for information of
there are no such ranges above. In
respect of the stock, lands and other
property is solicited.
